

Of the four following app ideas, which one do you believe is needed the most by your generation (check only one):

- 1. An online connection discovery app that lets you specify your interests and then uses A.I. to find other people across the country that you can friend request and keep updated on different life updates such by sharing stories, photos and videos. The app would allow users to like and comment on people's posts.
- 2. A social adventure mobile app for meeting in-person that assigns different coffee shops, bars and other cool places in your local area a specific topic, so that way any day of the week at any time you can hop from place to place in your local city and connect with a bunch of different people with different interests, all at different levels of depth.
- 3. A music sharing exploration app that gives you updates on all the new releases of your favorite artists and allows you to share short 7 second video clips of you listening to short segments of new music released by your favorite bands. Users can also send each other new bands that they have discovered as well as vote on which new bands they think are the best.
- 4. A social alternative to zoom that allows people to join small group video chats online across the globe with people of common interests and talk about a specific subject for 5-10 minutes before randomly getting shuffled into another group of people to talk about a new subject. Users can message and follow each other just like traditional social media.

Question (optional):

In a couple sentences, why did you select your answer?

Because I relocated to my new city and don't have a resource to find new and interesting things to do.

Users can message and follow each other just like traditional social media.

Question (optional):

In a couple sentences, why did you select your answer?

Sounds fun.

Or: Video Answer (Check): Yes No

Age: 48 Gender: Male Female Major: Education

Race/Ethnicity: American Indian or Alaskan Native Asian Black

Other Native Hawaiian / Pacific Islander Hispanic/Latino White

Of the four following app Ideas, which one do you believe is needed the most by your generation (check only one):

- 1. An online connection discovery app that lets you specify your interests and then uses A.I. to find other people across the country that you can friend request and keep updated on different life updates such by sharing stories, photos and videos. The app would allow users to like and comment on people's posts.
- 2. A social adventure mobile app for meeting in-person that assigns different coffee shops, bars and other cool places in your local area a specific topic, so that way any day of the week at any time you can hop from place to place in your local city and connect with a bunch of different people with different interests, all at different levels of depth.
- 3. A music sharing exploration app that gives you updates on all the new releases of your favorite artists and allows you to share short 7 second video clips of you listening to short segments of new music released by your favorite bands. Users can also send each other new bands that they have discovered as well as vote on which new bands they think are the best.
- 4. A social alternative to zoom that allows people to join small group video chats online across the globe with people of common interests and talk about a specific subject for 5-10 minutes before randomly getting shuffled into another group of people to talk about a new subject. Users can message and follow each other just like traditional social media.

Question (optional):

In a couple sentences, why did you select your answer?

Adventure what I'm seeking at this stage.

Or: Video Answer (Check): Yes No

Age: 37 Gender: Male Female Major: _____

Or: Video Answer (Check): Yes No

Age: 31 Gender: Male Female Major: DNAP (Nurse Anesthetist)

Race/Ethnicity: American Indian or Alaskan Native Asian Black

Other Native Hawaiian / Pacific Islander Hispanic/Latino White

Of the four following app Ideas, which one do you believe is needed the most by your generation (check only one):

- 1. An online connection discovery app that lets you specify your interests and then uses A.I. to find other people across the country that you can friend request and keep updated on different life updates such by sharing stories, photos and videos. The app would allow users to like and comment on people's posts.
- 2. A social adventure mobile app for meeting in-person that assigns different coffee shops, bars and other cool places in your local area a specific topic, so that way any day of the week at any time you can hop from place to place in your local city and connect with a bunch of different people with different interests, all at different levels of depth.
- 3. A music sharing exploration app that gives you updates on all the new releases of your favorite artists and allows you to share short 7 second video clips of you listening to short segments of new music released by your favorite bands. Users can also send each other new bands that they have discovered as well as vote on which new bands they think are the best.
- 4. A social alternative to zoom that allows people to join small group video chats online across the globe with people of common interests and talk about a specific subject for 5-10 minutes before randomly getting shuffled into another group of people to talk about a new subject. Users can message and follow each other just like traditional social media.

Question (optional):

In a couple sentences, why did you select your answer?

Or: Video Answer (Check): Yes No

Age: 30 Gender: Male Female Major: _____

Race/Ethnicity: American Indian or Alaskan Native Asian Black

Other Native Hawaiian / Pacific Islander Hispanic/Latino White
